-

Work Experience

Building an application for the Orev Paratroopers Association (Freelance)

July 2022 - August 2023

Building an application for the Orev Paratroopers Association where I served in the military. The application was built in full cooperation with the members of the association with the purpose to unite all the association's activities into one central place, so that all the unit's graduates, donors and regular fighters will be fully active in the association's activities.

Education

Practical Software Engineer, Technological College Beersheba
October 2021 - Present

Full High School Graduation, Ort Arad

Military Service

Special Paratrooper Fighter's Unit
July 2017 - March 2020
